SAUSALITO CAMPUS | JANUARY 14TH TO MAY 31ST 2019

GOALS OF THE AES DEPARTMENT & PROGRAM

Welcome to an exciting round of Semester Two Activities! Please note that some of our programs from semester one have an automatic roll-over (such as Judo and Kung Fu for example).

Please be sure to check and refer regularly to your Secured Parent Portal Website account. We have added in some new sections to update you on all our AES + Camps news and information including a new Activenet 101-FAQ. We believe that participation in AES will provide students a significant opportunity to become involved with other students and their coaches in an educational experience that takes place outside of the classroom while respecting traditional French/American traditions and customs.

As always, our door is always open and we will endeavor to answer any of your questions or concerns in a timely manner.

DRAMA (2ND-5TH) | FRIDAY \$336 16 Weeks

Whether you aspire to a career in Hollywood or not, you can only benefit from experience of life on stage with the Marin Theatre Company! Learn the basics of stagecraft, creativity and imaginative play, while enhancing your listening and observation skills, as well as your self confidence. Develop your memory and your speech enunciation while playing sketches or improvisations! You will perform a play at the end of the session to family and friends!

Instructor: Marin Theatre Company

CHESS (K-5th) | MONDAY \$294 14 Weeks
ALL LEVELS

Learn chess in a fun, engaging, and dynamic environment. Our philosophy is to instill the love of the game. As a result, we're able to witness firsthand our students developing patience, strategic planning ability, and critical thinking skills. They also come to understand that decisions, both on and off the chess board, result in consequences. Class caters to all levels and all participants receive our exclusive workbooks. If you have any questions regarding the program, please feel free to call (888)44-CHESS or go to www.academicchess.com

ELEMENTARY COOKING (3RD - 5TH) | FRIDAY \$496 16 Weeks (INCLUDING MATERIALS & INGREDIENTS)

Hello! My name is Lamia Spohn and I'm a Pastry Chef Manager at Choux Bakery in San Francisco. I have taught at SFBA, EFBA, and the SF unified school district. I love to teach and my passion for food also involves the science part, preparation, safety and the importance to eat healthy. Together, I will introduce you to new flavors, and an appreciation for each ingredient. I will introduce you to the basics and French cooking techniques as well as sharing a few secret recipes. For this class, healthy eating is teaching our kids about what is in their refrigerator and pantry at home. They will learn assembly basics and how to improvise things like pizza toasts or to create a simple egg dish (with an adult present when using stove or oven). They will learn about fresh herbs and develop their palates. **Requirements for students:** Each student will need to wear an apron and gloves. Respecting and following the rules of the Head Chef is non negotiable.

Instructor: Lamia Spohn

ART & CRAFT | FRIDAY 2nd-5th \$336 16 Weeks

Exploration in Art and Crafts

Using a variety of styles and mediums we will explore various techniques in drawing, painting and crafts. I will help your child discover their inner artist and develop their creative confidence. I love empowering my students to feel comfortable and capable of expressing themselves through art while having fun!

Carol Houghton is an artist living in Marin County, specializing in pastel drawings, acrylic and oil paintings and a variety of other mediums. She loves to work on a large scale, whether it is a custom mural or colorful pastel drawing and she expresses the energy of her subject in a vivid style. Her subjects range from European landscapes to large florals and her favorite, Intuitive Art. She has taught art classes with Youth in Arts, The DeYoung Museum Art School, and at various public and private schools in the Bay Area. You can see her work on Instagram at CarolHoughtonArt, and on Facebook at CarolHoughtonArt, Chez Moi Chic, and Houghton Home and Garden.

DANCE & BALLET K-5TH | WEDNESDAY \$374 17 Weeks 4:45 pm

Igniting the Joy of Classical Ballet Class: This class is designed to give your child a solid foundation in the principles of classical ballet. The focus will be on technique with an emphasis on musicality, rhythm, and placement. Instructor Jacqueline Low believes that classical ballet should be taught with discipline, focus, creativity, and FUN to sustain a child's natural "Joy of Dance." The children will learn creative, beautiful, and fun choreography while being encouraged to reach their highest potential. This class is appropriate for children new to ballet as well as those with previous ballet experience. Parents will be notified of observation days and performances. For more information about Jacqueline please visit her website www.joyofdanceballet.com.

CULTURE

DEBATE/MOCK TRIAL (3rd-5th) | TUESDAY & WEDNESDAY \$340 17 Weeks

Debate is one of the oldest forms of human communication. It was perfected by the Greeks over 2,000 years ago and plays an important part in our country's democracy. When the ancient Greeks would meet, they called it a 'symposium,' a place where people gathered to discuss and debate the philosophical topics of the day. This exciting new class gives a forum for students to do just that. You will learn how to express yourself freely through language and learn how to be an effective communicator through various time-tested, ageappropriate activities. Additionally, this class learns about the basic functions of the U.S. court system through 'mock trials' where students will role-play as lawyers, defendants, and judges. Always a big hit! Come learn all the tools of effective debate and public speaking by joining us in weekly 'symposiums' where all opinions matter.

Instructor: Parker-Anderson Enrichment

DINO JURASSIC WORLD (1st-3rd) | TUESDAY & WEDNESDAY \$340 17 Weeks

(1st-3rd): Become a junior paleontologist by studying the most dominant species planet Earth has ever seen...the dinosaurs! In this class, we will learn exciting information about many different dinosaurs and the era in which they lived millions of years ago. Some activities will include: excavating fossils from Dino eggs, piecing together fossils to make complete skeletons, making a personal, take-home Dino hat and tail, learning how to draw dinosaurs in vivid detail, solving Dino puzzles, and much more! Come step into the ancient world of the dinosaurs and begin your journey looking for a dinosaur that has yet to be discovered!

AIKIDO (K-5TH) | TUESDAY \$459 17 Weeks

Aikido is a Japanese Martial art founded in the 20th century by Morihei Ueshiba. The main focus of the art is to learn to harmonize and blend with an attacker’s incoming energy. The art puts as much emphasis on the moral and spiritual aspects of the training as the applicable self defense techniques. John LaGatta has been studying martial arts from Japan for over 25 years, and holds the rank of 4th Dan in Aikido. This program will be taught from a curriculum standpoint developed over years of working with children in a school setting. Children will have lessons in English, French, and Japanese. There will also be examinations for rank at the end of every term. Note: This is a one year commitment, students will be rolled over from Semester One.

BEGINNERS

ADVANCED

As created by Jigoro Kano, Judo (literally 'Gentle Way') is an intellectual, physical and moral method of education. It includes throwing, pinning and submission techniques. Judo is also educational and has fundamental values which are part of the Judo Moral Code: Friendship, Courage, Sincerity, Honor, Modesty, Respect, Control of Oneself, and Politeness. Be ready to share those values with William a black belt, through regular practices, and participating in clinics, local, state or abroad tournaments, and group training with other schools. Every year you could reach a new level rewarded by a colored belt!

Note: This is a one year commitment, students will be rolled over for Semester Two.

Instructors: William Desmole

TENNIS

(3RD-5TH) | WEDNESDAY 4:30 pm \$459 17 Weeks

Learn tennis with Higgins Tennis on the perfect sized mini-tennis court that is just the right size for learning how to play! They provide the racket, softer and larger low-bouncing balls and teach children all the stroke fundamentals including: forehands, backhands, and the basics of rallying. Then children incorporate what they have learned into games like “Catch the Mice”, “Feed the Monkeys”, “Skyball”, and “Castle”.

If it rains, they have a indoor curriculum. The curriculum is age appropriate, engaging, and will continue to use the same games-based learning that we use in our outdoor class.

At the end of each session children earn a medal!

All classes taught by Higgins Tennis certified pros. Over 600 children a week participate in their programs at schools and tennis facilities all over the Bay Area. Company owner, William Higgins, ran the largest junior tennis center in the world, the Barnes Tennis Center in San Diego and played on the ATP professional tour.

CODEFU (K-1st) & 2nd-5TH) | FRIDAY \$416 16 Weeks

Code Fu: Mini Coding Dojo

Using iPad/Asus Tablet applications like Scratch Jr, Kodable, Light bot, and Bloxels coupled with hands on board games that promote social problem-solving, Code fu's K-2 Dojo teaches students the computational logic of Computer Science/coding as well as provides them with an introduction into a number of block based coding languages. The second session will focus on tangible coding and will be introducing robotic coding using a number of Coding Robots such as Cubetto!

Using a number of fun Coding languages designed specifically for kids such as Scratch along with HTML, CSS, JavaScript, Python, and Ruby, students will be creating a variety of projects from games to customized websites; allowing them to learn the computational logic of Computer Science. They will be learning real languages and gaining an understanding of how programming affects our world. The following Dojos will scaffold on these skills by introducing Coding Robots which will demonstrate to the students the connection between coding and the real world!

TINY TECH (PreK) | THURSDAY \$437 17 Weeks PRICE INCLUDES ALL MATERIALS!

The Tiny Techies mission is to promote school readiness and life long interests in STEAM (Science, Technology, Engineering, Art, Math). Tiny Techies introduces students to robotics and interfacing through hands-on interactive technology projects. We build robots, paint with electricity, make movable and wearable inventions with motors, sensors, conductive materials, and more. Our techies engage with technology as a tool of creation, innovation and problem-solving design! We are the makers of the machines of the future!

Our teaching style supports inquisitive learning as we experiment with themes such as: solar/wind energy, e-waste, architecture, interfacing, circuits and biology. Examples of our technological materials include: vibration motors, copper tape, generators and tilt sensors. Our techies make projects such as: artbots, wands powered by wind, motorized vehicles and more! We provide academic support through literature, edtech tools such as circuit cubes as well as provide manipulative materials for sensory play. The classes are led by Diva Helmy, a preschool teacher and graduate of the Parsons Paris Art, Media and Technology BFA program in France and the MFA program at the University of Bergen in Norway.

SAN FRANCISCO GIRLS CHORUS (K-2nd) | WEDNESDAY \$500
COMMUNITY PREP CHORUS
3:30-4:30pm

The San Francisco Girls Chorus Community Prep Chorus provides young singers with the opportunity to develop their voices and musicianship in an exciting, positive, age-appropriate atmosphere. Singers will be introduced to unison choral music and beginning vocal technique. Following the methodology of educator Zoltan Kodály, folk music, games, and dances foster the enjoyment of developing musical skills, including reading, writing, improvising, interpreting, and describing music. Singers will use their voices, bodies, and rhythm instruments to make music, experience music, and internalize music. They will also build reading, listening, and memory skills through weekly practice, and develop confidence and stage presence in preparation for a final showcase performance.

SAN FRANCISCO GIRLS CHORUS (3rd-5th) | WEDNESDAY \$500
COMMUNITY CHORUS I
4:30-5:30pm

The San Francisco Girls Chorus “Community Chorus I” provides young singers with the opportunity to develop their voices and musicianship in an exciting, positive, age-appropriate atmosphere. Rehearsals include vocal technique, movement, music theory, sight singing, and beginning choral repertoire. Singers will make music, experience music, and internalize music, developing listening and memory skills through weekly practice. They will grow in confidence and stage presence as they prepare for a final showcase performance. Introduce your young singer to the discipline, teamwork, concentration, and excellence built by the SFGC Chorus School Curriculum, which instills in them the values necessary for high achievement and joy in music and in life.
